

Ph.D. fellowships at the European University Institute

The European University Institute (EUI) in Florence, Italy, is an international, research-performing university for doctoral and post-doctoral studies within the EU system.

The Research Council of Norway has an agreement with the EUI under which the EUI may admit up to four new doctoral candidates each year with three-year doctoral fellowships granted by the Research Council in the following subject areas:

- History and Civilisation
- Law
- Political and Social Sciences
- Economics

The grant holders will be employed by the University of Oslo for the first three years.

Annual application deadline

The application deadline for EUI doctoral fellowships is 31 January each year. The call for application will be launched on [the EUI website](#) on 1 November.

The admissions application must be sent directly to the EUI. The application to the EUI automatically serves as an application to the University of Oslo as employer, but the doctoral fellows will be admitted to a doctoral programme at EUI only.

Fellowships

Candidates who are admitted to the EUI will receive a three-year doctoral fellowship and be employed by the University of Oslo for the first three years. In the first year of study, they will also receive a grant that corresponds to the Research Council's rates for research stays abroad.

EUI doctoral fellows may apply directly to the EUI for funding for a fourth year, provided that satisfactory progress has been made on the doctoral thesis. If the EUI awards a grant for a fourth year, doctoral fellows who have been employed by the University of Oslo for the first three years may apply to the University of Oslo for a grant for research stay abroad for the fourth year.

For more information about the application requirements and other conditions, as well as access to the application form when it is made available, [please see the EUI website](#).
